

Paradigm 700NW Labeler

The Model 700NW is a fully automatic labeler especially designed for functionality and versatility. This machine can consistently apply front, back, and neck labels to your round and non-round containers. It is also upgradeable to meet future production demands. Standard features on the model 700NW include the top hold-down belt, aligning belts for infeed, an ultra-fast PLC and accurate stepper-driven labeling applicators.

Machine capabilities:

- Speeds to 70 bpm stock depending on label length. Up to 180 bpm with dual servos.
- Fully automated
 - PLC controlled
- 1" to 6" tall x 14" long labels
 - Upgradable to 7 ½" tall labels
- Consistent pressure across the entire label length
- Fully adjustable from 1" to 5" diameter containers
- Changeovers require no tools and take less than 10 minutes.
