

Saluda Labeler

The Saluda is an entry level labeler offering. However, just because it is a base model does not mean that it is in any way inferior in its ability to put a wrinkle-free, straight label onto a round container. This machine can consistently apply labels to your container with minimal user input.

Machine capabilities:

- Fully automated
 - PLC controlled
- 1” to 6” tall x 14” long labels
 - Upgradable to 7 ½” tall labels
- Consistent pressure across the entire label length
- Fully adjustable from 1” to 4.5” diameter containers
- Container spacing done by filler.

Speeds up to 30 containers per minute.

Options

Machine Layout:

Height to match your line elevation. Conveyor is fixed length 48”

 7-1/2” Tall Label Upgrade available
